Model Name / Description: _____

Scale: _____ **Manufacturer:** _____

Entry: Box Stock (everything right out of the box) Non-Box Stock

Media Type: Acrylics Enamels Oils Lacquers Watercolors Inks Pastels

Technique: Brush Airbrush Spray Wash Drybrush Tint Glaze Rubbed

Tell us a little bit about your model: _____

Note: Judge's evaluation of model located on other side of sheet.

Judge's Evaluation

Craftsmanship: Fabrication & Assembly

Alignment - items properly located & oriented, absence of incorrect overlaps or gaps, etc.

Geometry - consistent proportions, absence of deformities or warpage, items in-scale, etc.

Surface Preparation - absence of mold flash, mold lines, inappropriate seams, mold release pin marks, etc.

Surface Finish - in-scale & consistent surface texture, well-blended putty-work, absence of inappropriate surface blemishes & glue marks, etc.

5 - Superior 4 - Excellent 3 - Very Good 2 - Good 1 – Fair

Comments: _____

Finish: Appearance

Media Application - consistent sheen & surface finish of media applied, well disguised techniques, absence of incorrect overlap, improper coverage, blemishes, etc.

Shadowing/Shading - well rendered contrast to account for portrayal of lighting

Color Blending - even transition with absence of inappropriate stark changes

Weathering - well rendered contrast & transitions resulting from the portrayed environment

Decals/Foils - absence of silvering, proper alignment, edges feathered well, little surface marring, etc.

5 - Superior 4 - Excellent 3 - Very Good 2 - Good 1 – Fair

Comments: _____

Effectiveness of Model: Realism

Detail - subtle distinctions & variations rendered, fine intricate features rendered, etc.

Colors - variations, contrasts, & blending of colors realistically rendered

Accuracy - weathering, shading, colors, & sheen consistent with environment & scale portrayed; elements complement each other; subject matter accurately portrayed

Completeness - level of detail & accuracy consistent throughout the model

Dynamics - action realistically portrayed, positioning of elements reasonably feasible

Presentation - elements well balanced, cohesive, & unified; captures viewer's imagination & attention

5 - Superior 4 - Excellent 3 - Very Good 2 - Good 1 – Fair

Comments: _____

Level of Effort: Difficulty

Complexity of construction, complexity or challenge of finishing techniques, technical innovation, creative rendering, dedicated attention to detail, customizing or "scratch" building

5 - Superior 4 - Excellent 3 - Very Good 2 - Good 1 – Fair

Comments: _____

TOTAL POINTS: _____ +5 (for entry) = _____
